The people of Ukraine and tax bearers of the country are a single whole!

Tax bearers remember that all political parties in the country, parties of officials. Officials are intermediaries between the people and the power delegated by it which they abuse, from our tacit consent. Payers of taxes are an economic basis of the state, a perennial spring of its power, prosperity and filling of the budget of the country. In that that occurs in the country, we are guilty are tax bearers. We, many years ago, uncontrolledly delegated the power to officials, have admitted them to the state property and the country budget. Here also leaves what to correct the committed errors it is necessary to us - to tax bearers. We should bring up the worthy shots, direct them under the party permit to the power and supervise quality of work.

We pay your attention that payers of taxes of Ukraine, the future members A-UPTP, are federated members of trade unions of Ukraine and are a part of All-Ukrainians public organisation «Association of tax bearers of Ukraine» to which as the offer from organising committee of the project "LIFE" is directed, to take part in creation WAPTP and A-UPTP.
