**Do you know what are the political parties in the world - parties of officials and their environment?**

***Also what to do, when to hands of talented officials, the state sticks?***

**You will find the answer to this and other questions, having familiarised with the project "LIFE".**

Unfortunately, we, tax bearers of the country and the people of Ukraine, that without realising, delegated the power to officials, have put them over itself.

Having taken advantage of our trust, officials, fabricate criminal cases, extort bribes, destroy and beat us, offend and humiliate our personal advantage. Also it is all becomes publicly, in the face of world community.

Thus officials, so-called political elite of the country, declaring that the power in the country belongs to the people, really owning the power, have made us the slaves in our state. To finish it, we should struggle for the rights and freedom. Voluntary to dominate over us, officials will not stop. Wish to know, how in this struggle to achieve the victory? Political parties are necessary to officials for discharge of the people from the power and its deduction in the hands. Through the power they provide the economic well-being, preservation and augmentation of the stolen national good.

**We invite tax bearers of all countries, to take active part in Transnational economic-the legal Project "LIFE"!**

# THE TRANSNATIONAL PROJECT «LIFE»

We authors and initiators Transnational economic - the legal Project "LIFE", scientists and experts of the various countries in many areas of a modern science and the technics, new bases of political economy, sociology, economy and the finance, philosophy and jurisprudence, jurisprudence and international law, psychology and political science have concentrated world knowledge for the decision of the ripened problems and advancement in a modern society: atom - the hydrogen and hydrogen energy alternative and renewed power, fuel elements, nanotechnology, nanomaterials.

Transnational economic - the legal Project "LIFE", integrally includes, as its component, the International ecological project «Peace Hydrogen and Energy», and also creation of the International Technical Consortium «New Ecological and Energy Projects». To be realised in full volume, the project provides formation of the World Assembly of Parties of Payers of Taxes and creation in each country, the participant of the project, political party of tax bearers for the purpose of protection of the constitutional laws and freedom.

In Ukraine the rights and freedom of tax bearers will be protected also by All-Ukrainian Party of Payers of Taxes.

For the objective sociopolitical reasons we intend to begin realisation of the program developed by us at first in Ukraine, as the weakest link, then in Europe and in other countries of the world.

The international Project "LIFE" is presented ambassadors of the foreign states in Ukraine, Heads of the States, Parliaments and the Governments of 84 countries of the world. To the INTERPOL, Chambers of commerce of the countries, Associations of hydrogen energy: American Hydrogen Association, European Hydrogen Association, Association Française de l'Hydrogène, Italian Association for Hydrogen and Fuel Cells, German Hydrogen and Fuel Cell Association, The Spanish Hydrogen Association, The China Association for Hydrogen Energy, European Technology Platform for Hydrogen and Fuel cells, International association for hydrogen energy, Partnership for progress in the transition to a hydrogen energy, International Energy Agency, Organisation for Economic Co-operation and Development, International Partnership for the Hydrogen Economy, International Monetary Fund, Russian Corporation of Nanotechnologies.« European Wind Energy Association », to the Ministries of ecology, economy and the finance of countries European Union (EU), BSEC, APEC, BRICK. To strategic investors, World bank (IBRD), THE EUROPEAN RECONSTRUCTION AND DEVELOPMENT BANK (ERDB), BSEC Business

Council, United Nations (United Nations), GREENPEACE, United Nations Environment Programmers (UNEP), UNESCO United Nations Environmental Program, International Atomic Energy Agency (IAEA), IUCN, WWF, THE CLUB OF ROME, United Nations Economic Commission for Europe (UNECE), European commission, Economic and Social Commission for Asia and the Pacific (ESCAP), OSCE, APEC, European People's Par, Economic and Social Commission for Asia and the Pacific, United Nations Economic Commission for Europe, INTESA SANPAOLO, AJMAL HAMEED and PARTNERS, Society of Strategic researches» (Berlin), "Joseph Muller Corporation Zurich" (Switzerland), Bill and Melinda Gates Foundation, Berkshire Hathaway Inc., Mr. Warren Buffett, SC Academy of Sciences in Chernogolovka, Institute of PCP, RSC Kurchatov Institute, Russian Academy of Sciences and to other public world political, ecological and power organisations.

We authors and initiators Transnational economic - the legal Project «the LIFE consider that on the basis of introduction of" High technologies »in an everyday life, probably to solve problems of ecology and preservation of a climate of a planet, to lift economy of the states of the world participating in the project, at the expense of creation of the internal and external self-sufficient market, to solve ripened internal socially - economic and legal questions in a society.

Each country participating in the project "LIFE" has financing of investors on development of high technologies in volume of 1.5 billion EURO. Thus, first of all, to solve and consider questions consolidating state and a society. In process of economic growth and development of the countries, improvement of a standard of living of the population, many sick and disputed questions which have collected in a society, will disappear in itself.

The states where parties of payers of the taxes will be created, become by a part of the World Assembly of Parties of Payers of the Taxes, actively participating in realisation of the project "LIFE", will receive financial investments in 10 times more, i.e. in volume of 15 billion Euro. Means will be purposefully given on development of "High Technologies», nanotechnology, manufacture nanomaterials, development of fuel elements of new generation.

And, hence, and on development and chemical and a petroleum-refining industry, mining, motor industry, heavy mechanical engineering, building of habitation, technical re-equipment of gas-transport system, generation and energy, development of renewed and alternative sources of fuel, municipal and agriculture, development of the state and commercial building, medicine, public health services and infrastructural transformations in a social society.

# THE TRANSNATIONAL PROJECT «LIFE»

In this case investors, World bank and the European Reconstruction and Development Bank, putting huge means in economy of this or that state, will be assured that they will not lose means, the invested states will not endure internal political conflicts, the country will be forward and economically stably to develop, to made inexpensive energy carriers and to master new world technologies. The country population will receive a high standard of living, a worthy legal protection when its rights and freedom will be protected.

Thus, through a favorable investment climate, economic lifting of the states and introduction of "High Technologies», we can strengthen the international cooperation. To tighten economically backward and developing the countries, to strengthen the peace on a planet and to remove many national, international, state and international conflicts, contradictions and disagreements on a religious basis in a society, to stop acts of terrorism and wars on a planet.

The world will be the guarantor of a constructive labour of mankind.

We invite all tax bearers of Ukraine, legal and physical persons of the country, public organisations: FPU, APNU, TPPU, funds to which invitations are sent to take active part in realisation of the project "the LIFE" developed on base «High Technologies» and directed on a raising of economy of the state, the decision of social problems in a society, protection of constitutional laws and people civil freedom, through creation of "All-Ukrainian Party of Payers of Taxes».

Public organisation board «the Center of protection of the rights and freedom of payers of taxes» - "LIFE", creation Organizing committee «World Assembly of Parties of Payers of Taxes» and «All-Ukrainian Party of Payers of Taxes», a management of the International Ecological Project «Peace Hydrogen and Energy», considering known unity in sights and estimations political and an economic and social situation in the country of healthy forces of a society, take the lead also responsibility on their consolidation.

Understanding that today any of existing political forces not in a condition independently to prevent approaching crash, we suggest all to consider the problem on participation legal and physical persons, tax bearers of Ukraine, in realisation developed by us multiplane International ecological, power, socially - the economic and legal project "LIFE".

The project purpose:

1. The Conclusion of Ukraine from deep system political and socially - an economic crisis.

# THE TRANSNATIONAL PROJECT «LIFE»

2. Creation in Ukraine necessary preconditions for transition from postindustrial economy to real economy of the newest, universal technologies.
3. Maintenance social and economic-legal protection payers of taxes

The project models new political thinking and new ideology of tax bearers of all countries of the world.

The people and tax bearers of the country are a single whole!

The Transnational ecology-energy project "LIFE" on development of "High Technologies» within the limits of the International Ecological Project «Peace Hydrogen and Energy» is already developed and is realised.

The EU countries participate in the project, BSEC, BRICK, and APEC. The project provides creation of "the World Assembly of Parties of Payers of Taxes» (WAPTP), with participation of 84 states of the world.

Work on creation of the program of the named project "Life", working out economic, scientific and engineering specifications IEP «PHE», ITC «NEEP», and also preparation of program documents of creation WAPTP and A-UPTP, was carried out within seven years.

# THE TRANSNATIONAL PROJECT «LIFE»

IEP «PHE» will be, it is realised by us in regions of Ukraine and in the world through the authorised structures of the Transnational project "LIFE" with your participation (see on the site).

The project "LIFE" provides creation of All-Ukrainian party of payers of taxes, as political tool on protection of constitutional laws and a civil freedom, expressions of political will of the people, capable to provide its realisation with participation of adult population of citizens of the country.

The organising committee of creation A-UPTP spends all necessary preliminary work on preparation for a party registration, capable to unite ideologically, on a party and political basis of all tax bearers of the country

We offer everything, with participation of Federation of trade unions of Ukraine and APNU to unite our efforts and possibilities, that the new created political force identifying as the uniting party of all people of Ukraine, could take part today already in current presidential and parliamentary elections.

The main task of All-Ukrainian party of payers of taxes we see in preparation and arrangement of anti-recessionary managers, in the decision of personnel questions during the transitive economic period, in carrying out of social reforms and in the state building, at active participation of Federation of trade unions of Ukraine and APNU.

Thereupon we conduct consultations of political parties about a re-registration of one of them, on the basis of the projects of the Charter developed by us and Program A-UPTP, with acceptance of the new name of party by it (see on a site).

On the basis of already existing party organisations, after registration of the new name of party in the Ministry of Justice, we form party committees.

We believe that creation of new party committees, in this case, to us should be spent on the basis of a continuity and updating principle.

Simultaneously we inform you that as the International project "LIFE" is multiplane and deeply stack similar work on creation of structures and political parties of payers of taxes is already spent and in a number of foreign countries with which organising committees we support straight lines and close connections, we impart experience party building for association of tax bearers of the country, protection of the rights and freedom. (The Analysis of visiting of our sites see is applied).

# THE TRANSNATIONAL PROJECT «LIFE»

Ultimate goal of our work is realisation of the International ecological project «Peace Hydrogen and Energy», creation of the International Technical Consortium «New Ecological and Energy Projects». Formation of the World Assembly of parties of payers of taxes, at participation Trading - Industrial chambers, Federations of trade unions and tax bearers of the various states of the world, including European (Central and East), the central-Asian and World Association of payers of taxes.

The organising committee Transnational ecology-energy, economic - the legal project "LIFE" and creations A-UPTP asks you personally, to familiarise with our documents on a site. We ask as Federation of trade unions of Ukraine, APNU and TPPU to state the point of view, as legal and physical persons - tax bearers of Ukraine, concerning your participation in work on creation and formation new perspective really to people party A-UPTP.

We consider that in case of association of our efforts, Public organisation «the Center of protection of the rights and freedom of payers of taxes» - "LIFE", Federation of trade unions of Ukraine, APNU, TPPU legal and physical persons of tax bearers of Ukraine will act as the initiator of promotion on a post of the President of Ukraine of the national candidate. In the subsequent, at registration of the new name and reception of the legal status A-Ukrainian parties of payers of taxes as essentially new constructive and consolidating political force of a society, A-UPTP has every chance to win the majority in parliament.

Today round Transnational ecology-energy, economic - the legal project "LIFE" all Tax bearers of the countries of the world unite.

Ukraine as the state with property and a source of raw materials, factories and factories, collective farms and state farms, wanders from one party robbers to another.

This struggle of officials in the country for the power, in the face of the people of Ukraine, proceeds within last 20 years

. Officials periodically involve the people as arbitration judges, pitting it on the country areas at upholding of the mercantile interests, paying off with it stolen money from the country budget.

It is necessary for tax bearers of the country, to return all that has been stolen from state economy, for maintenance of its prosperity and development.

Officials see and solve only the problems in a society, protect the interests and do not allow to develop to other members of a society as a weed on a kitchen garden, and we have grown up it, to us it and to delete. Has come it is time mow it and to uproot.

Officials write for us laws and force us, them to carry out; during too time they do not adhere to itself immunity of inviolability and to us the law. In banks on 25-30 % those who

# THE TRANSNATIONAL PROJECT «LIFE»

can provide in the country 200-500 % pledge of high liquidity can receive credits only. They have made it under themselves, under the actives as except officials, through the front the company, to get profit, for example, in building, 200-500 % anybody from us cannot. How to the businessman in trade, to the industry or the farmer in agriculture to rise and become on feet? Where to take such inconceivable pledge and to provide to its bank?

Agriculture everywhere in the world on the state grant, and at us of 40 % of a world's reserve of chernozem and agricultural in the catastrophic loss, the worker has sat down the beggar.

Arable and cultivated agricultural cultures the Earth in the country, large landowner at the people have selected. Were enriched for its sale, and here to process it there is nobody.

If it is good for the country and for them so let and will pay, in the country budget, the lost profit the state and the people, on the average statistical productivity, the grown most up cultures in region.

At continuation of idle standing of arable lands, payment should be collected from originators from calculation of the highest productivity in region and those cultures, which distances most big crops on this earth, for years of existence of the state.

Who has cut factories on scrap metal, also should compensate losses to the state.

As a result of official a robbery the country people became beggars and have turned to slaves on own earth. The animal industries from 30 million goals of horned cattle were reduced to 6 million. Swine breeding, sheep breeding, large poultry farming is ruined. The industry is brought to nothing.

The country which extracted 85 billion cubic meter of gas a year, extracts today all 15 billion cubic meter. Have cut sugar factories, have destroyed beet growing, fertilizers leave for export, productivity submits, those grain yields that have grown up, there is no place to store.

There is a revolutionary situation in the country, bottoms do not wish to live on old, and tops, i.e. officials cannot operate in a new fashion as at them does not suffice either knowledge, or talent, brains. Greed of the official wins reason. And to steal it is less, or not to steal at all from the budget, they too cannot, as have bought these warm and profitable places, and very much wish to return the money which are given in the form of a bribe, to other high-ranking official to the authorities!

The high-ranking officials use the office position, direct financial streams through the commercial structures, exhaust municipal payments and budgetary national money in the banks.

# THE TRANSNATIONAL PROJECT «LIFE»

We sell the work in the country, for penny and we receive salaries in 5 times less, than in the west. We have inflation, the world prices for essential commodities, and taking into account inflation officials from the power have world salaries only.

We receive daily hundreds letters from all countries of the world, but most of all questions there is in Ukraine, Russia, Georgia, Kazakhstan, Great Britain, Lithuania, Latvia, Peru, Croatia, Germany, France, Bangladesh, Brazil, the USA, Belarus, Egypt, Malaysia... ( see on a site)

There are many questions repeating. Considering this circumstance, we would like to answer them, having united the last in groups.

## 1. Your party is focused on what social group?

The numbers of social groups is limited and for them parties are thought already up.

And communistic and SDP, both liberal, and conservative, exist nationalist, religious and a heap of other intermediate parties.

There are parties of women, fans of beer, blue and green. There are parties derivative of bureaucracy or the leader, defending exclusively the power.

To expect that forces of several enthusiasts, even with erudition and life experience with participation of some institutes of the various countries, probably to invent something new, unduly self-confidently.

Unfortunately, without charismatic the leader, it will be difficult to win sufficient popularity in our poor and poor society. We do not have civil society, and exists television audience of ringleader.

Whom with from known persons in general probably today to co-operate?

The people of many countries are disappointed in the leaders of the states, parties, the governments, members of parliament who periodically accuse of larceny, but after leaving from the state post, the country people will insist, on their attraction to responsibility, and to judge in the homeland or in the international court.

Tax bearers of the countries wish a revenge and justice for the humiliations and strictly to ask from officials not only during the last years, but also for the previous.

# THE TRANSNATIONAL PROJECT «LIFE»

We wish to hear from you, how much powerful International project "LIFE" how the press of the various countries of the world writes about it?

What, the project really allows to look under other corner at a state system of the countries and to turn national thinking and ideology, to break stereotypes and so strongly to be developed worldwide with participation of 84 states?

## THE ANSWER

Our workings out are offered today to a modern society as alternative to that it has in Ukraine and in other countries of the world. But to be deep echelon and directed in the future, the program should find, at least, the response at people. And clever people, not indifferent to destiny of the Native land, will offer much; valuable and useful to designing of new model state and country social development. Look, how many on our site come people from the different countries of the world. We generalise and we analyze arriving offers. All it will help us not to admit gross blunders in the theory, and in the subsequent, and in practice. If our documents cause known interest in such people, advanced views, - we on the right track in the searches, reflexions and aspirations. We expect to prepare a new variant of the program for congress A-UPTP, with the account of the arrived offers and remarks. We will be glad to your participation in this work. Try to formulate the offers on sections, as much as possible particularly.

It is difficult to agree with you that on the questions put to us, there is no answer in our documents. As we understand, you have familiarised with them only partially and not deeply. You should see our sites in detail:

[www.peaceful-hydrogen.com](http://www.peaceful-hydrogen.com)      [www.vppp.org.ua](http://www.vppp.org.ua)

That is now your doubts on the substance. Really, hegemony of the USA has ended. But they still any time will try to impose to the world the will and to dominate. Their prompt "falling" will begin world currency and formation of new financial and economic relations with refusal of many countries of a recognition of dollar. It will inevitably lead to model change world device. After all, in effect, all Western democracies (both Europe and the USA) have been created with one purpose, as means of a gain of world supremacy. Through what? Through decomposition of national societies, destruction of national cultures, morals, destruction of their statehood.

# THE TRANSNATIONAL PROJECT «LIFE»

Over all it the Home Office which have filled up the world "green", by nothing provided towered. For deduction of the influence, the USA led to the power where only could, the so-called democratic governments which are no more, than the officials' governments. They also corrected ball, periodically replacing, the friend to the friend, being covered with slogans of the power of the people. Then, as actually, the people have been completely discharged of the power. Being in hands of officials, it, the power, acts only as the mechanism of suppression of the people, its robbery and compulsion to work, on the same officials.

In the world new representation about the form and a state role is born. The basis of the state of any form is made by tax bearers. They form budgets, contain the state superstructures and bear all burdens of public expenses. They also should possess the real power. Besides, the world economically cannot develop, as before, using only planet resources. It should count on development of new technologies in all spheres, including in the decision of problems of world ecology.

Thereupon enthusiasts, people of the advanced thinking, had been developed the project "LIFE" consisting of two inseparable parts: the project «Peace Hydrogen and Energy» and the project «World Assembly of Parties of payers of taxes», in general, in the sociopolitical, legal and economic relation, this know-how. In the project are involved more than 80 states of the world. Without false modesty we will tell that Ukraine here goes in advance planets of all. Why? Because it its weakest place. Both sociopolitical, and economic degradation into which it was cast by the officials power, objectively and have created conditions of the occurrence, the first link of the World Assembly of Parties of Payers of Taxes, namely - All-Ukrainian Party of Taxpayers. But how it can deduce the country from a collapse and deadlock? Only through general consolidation of the people on the basis of the program and reorganisation of the economy which is based on the newest technologies. The project «Peace Hydrogen and Energy» gives the chance to Ukraine to step in the future already today. (See the site «Peace Hydrogen and Energy»)

What disturbs? Yes the power of officials! Therefore the project without gain A-UPTP of the political power will slip. Officials become a wall against its realisation. After all the power is their well-being, and from the blessing they is simple so, will not refuse. That is why the organising committee aspires to unite today all advanced minds of Ukraine round our ideas. But I will tell what to apprehend all new, happens not simply even to those people who always considered it to the scientists standing on progressive positions. Many of them cherish on the power, are lured and sit at the officials, fastened, on a short lead. Too, as well

# THE TRANSNATIONAL PROJECT «LIFE»

as the authorities it would not be desirable them changes. Is fluctuating and doubting, like those who puts such questions. It is mentality of Russian, Ukrainian and international intelligency. The intelligency is a salt of any nation. But there will come such moment when there will be nothing to salt that porridge which they have made.

Understand the main thing. The power has taken care of hypertrophying consciousness not only the average inhabitant, but, first of all those who is capable to form outlook: teachers, teachers, scientific, i.e., representatives of spiritual sphere. Because people vote now not for ideological platforms, and for the leader: Janukovich, Timoshenko, Jushchenkov, Jatsenjukov, Tigipok, Tjagnibokov and other toadies of officials, robbers of own people. Look how many lately officials from the power it is made answerable worldwide, from a genocide of own people, massacre, shooting of leaders of national and political movement, to plunderers national good, officials enriched at the expense of poverty of own people. They have accustomed people to sell the voice.

In Ukraine for 100-200 GR, and even for kg buckwheat then to plunder these «soul-vendors on perplexity» it will take in head. Through increase of tariffs for utilities, the prices for the foodstuffs, journey in public transport and other that makes a basis of their ability to live. Look, to what meanness applicants for presidency fall in the lies about fidelity to the people.

## **If language curtails once on a lie way it is heavy to return it on a way true.**

They are ready to lick languages streets if only again to climb up a slippery pyramid of the power. A-UPTP intends to declare and take part in elections of the national president, not by a principle of a favour to officials and promotions of nominees from their parties, and on the basis of national its competitive search. We also intend to achieve an adoption of law and about government formation on a competitive basis, on business and professional qualities. Unfortunately, many citizens have not left a stereotype imposed to a society by bloodsucker-officials: and under whom the party, who that leader whom we should follow, like a flock of sheep is created? Here you, Mistery deeply are mistaken! A-UPTP - party of all people where there is no place that who "has already proved" in the power, plundering the people and serving officials. A-UPTP unites the people, instead of represents interests of any social group. The people - the tax bearer, wishes to know, in what its work where and on what there are its taxes will be transformed that really it receives, deducting the state a part, big or small, incomes.

# THE TRANSNATIONAL PROJECT «LIFE»

HE - the PEOPLE, wishes to have prospect to live better, than it manages it today, wishes to see the future of children. But it is deprived by the power of officials. A-UPTP categorically intends to change such state of affairs in the country. Let's struggle together for it, to wait for arrival of the barin which will judge us - worthless business. It is a position of spongers. Therefore, we also call all who, realising impossibility to live how to us offers the power of officials, to unite efforts for building of a new life. Yes, program A-UPTP is yet perfect, still it should consider much. Therefore, already today we offer though something real for the people of Ukraine and tax bearers of all countries, for change of a life in the country to the best. While we discuss, complexities of problems, candidates for presidents from officials, do not doze. They read our program; choose it's most attractive positions and give out today to the people, our ideals. And the people on it can be bought, as were bought and before. But let he knows that making the transaction with conscience, it dooms itself and the children to even more pity beggarly existence, than present. The power takes from it tenfold, to that will submit. Any of parties of officials cannot tell that their party unites all those who are an economic basis of the state and a perennial spring of filling of the budget of the country unlike A-UPTP.

All parties of officials bring split in a society these parties sectoral. They cover those voters who it was on sale, or the official in something is guilty before ITSELF. They have no ideology, and national roots, all in words, except desire of their leader and the leader to sit down in this or that armchair.

Here half measures not to manage. Pregnancy cannot be partial. And in the politician, it is necessary to solve particularly and in details, once and for all, half measures here not to manage. The country law is uniform for all. It is impossible to write country laws under itself and the environment.

To payers of taxes, it is necessary to collect the strength and put things in order in the country, to sort things out and protect tax bearers of Ukraine from violence, arbitrariness and a yoke of officials.

It is necessary to change urgently all in a root and to create, at least one really people party, not under the name, and as a matter of fact, for protection of constitutional laws and a civil freedom of the people of Ukraine, native Fatherland of tax bearers.

The public organisation «the Center of protection of the rights and freedom of payers of taxes "LIFE" has developed the program of creation of All-Ukrainian Party of Taxpayers (A-UPTP) and nominee promotions on a post of the President of Ukraine from tax bearers of

# THE TRANSNATIONAL PROJECT «LIFE»

the country. After registration A-UPTP, she intends to participate in elections in the Supreme Rada of Ukraine!

***A-UPTP will help you to change your destiny and destiny of your children to the best.***

They use our work and our earned money. They establish and dictate us the sums of taxes and penalties, invent for us new various payments and taxes to the maintenance. Officials use the people for the decision of the mercantile questions, and the main thing for reception through us, tax bearers, the power in the country.

In the country create new workplaces for officials, but not for the working people. It is necessary, to owners of parties, high officials from the power already today to buy votes in those regions where they have put the officials. Through attraction of an administrative resource (vassals - officials), for gathering of voices in support of the necessary candidate on elections, they do the dirty work.

New workplaces in real sector of economy the Government, the President, have not created political parties of the country. National money leaves on struggle against the people and to opposition of parties in a society.

Tax bearers of Ukraine, we are an economic basis of the state and a source of formation of the budget of the country. We are form political, economic, legal and defensive potential of the state.

We are a perennial spring of economic development, prosperity and power of Ukraine.

Payers of taxes remember: if will not suffice in the budget of your money for the salary officials it will not reduce, and will cut down unequivocally social programs in the country. The will be officials in Ukraine on your maintenance less, the will be also corruption in the country less. True is which does not demand proofs.

Your labour money in hands of greedy officials has finished the country to crash and has created to you intolerable conditions of a slavish life in the country. The maintenance of officials should be by a residual principle. After drawing up of the social budget on a country survival, in crisis, tax bearers of Ukraine should be defined, how many they presume to themselves, to contain officials in the state and on what salary.

If Ukraine cuts down the expenses on the maintenance of 90 % of officials in the country all social problems and state economy will dare will sharply rise upwards.

Officials it is necessary to reduce and translate urgently them from non-productive sector of economy, in real, self-sufficient industrial sector, to decrease in the cost price of production and increase in profitability of manufacture.

For this purpose it is necessary to create new highly paid workplaces in the country. To restore a professional training in the TECHNICAL TRAINING COLLEGE, technical schools, institutes, to create stimulus on acquisition of working trades in the higher high schools of the country. To create and finance groups of scientific data carriers on youth training to do opening in applied and fundamental science. Workers of the basic trades in the country should get the deserved wages, instead of to lead with families' poor existence.

Let's reduce unprofitable workplaces for «white collars» and we will create new highly paid and highly profitable places on the basis of High technologies, for dark blue collars.

Manufacture of a national intellectual product and its introduction in manufacture, should be the basic field of activity of the country and the leading companies of Ukraine, as participants Transnational economic - the legal project "LIFE", the International ecological project «Peace Hydrogen and Energy», creations of the International Technical Consortium «New Ecological and Energy Projects» and «the World Assembly of Parties of Taxpayers».

Tax bearers of Ukraine, take the power in hand! Defend the rights and freedom, discharge impudent officials of a country government. Go to the power and create the All-Ukrainian Party of Payers of Taxes (A-UPTP)!

Some do not like the party name. And the life such to be pleasant to you and what occurs in the country? And you like to live the beggar with the family in such Ukraine? But in Parliament of Ukraine, will sound «payers of taxes» have registered and have submitted the law, make demands, recommend in the government or propose a nominee in presidents of the country. What here is still necessary advertising and public relations, for our candidate from tax bearers of Ukraine?

Tax bearers are all country, and it means that its proud voice will sound. Instead of small groups of party functionaries - officials from the power, and people bought by them on once, for elections. I think that the happiness for officials and their environment will soon come to an end.

Tax bearers of Ukraine, you can fairly distribute the collected budget money: for needs of invalids, needy, pensioners, children of orphans, veterans, large families, participants of war and internationalists. Lift a national economy and deduce it from crisis, the future of your children, the family, more than ever, in your hands.

# THE TRANSNATIONAL PROJECT «LIFE»

Tax bearers of Ukraine, your force in creation A-UPTP, a management of party, preparation and placement of personnel in country state machinery!

Power branches have rotted through. There was a merging of the power with crime. Officials trade in drugs, shoot people and remain unpunished. And after fulfilment of crimes freely leave the country.

Put the national President for country governments, discharge of the power of all former and present officials, generate the command from tax bearers of the country.

Tax bearers! Let's contain at our expense only those who deservedly defend our rights and freedom, serve us, the people of Ukraine, tax bearers.

We have got tired of experiments with us and our children of the state lacks of talent and heads of various parties.

Who has told, what they - the best? They the worst of the worst! That certificate to that, last 20 years and a grave condition of economy of Ukraine.

Remember it always. There are no today on an occasion at party upstarts and officials from the power, robbers of the people. Create the, national All-Ukrainian party of payers of taxes! Struggle for the power in the country!

We have admitted a fatal mistake in the life. Have started up officials is robbers of the people uncontrolledly in the power. 7 % of the population of the country, and are officials, own all property of the state. Who they? They are former and present officials. They are cleverer than us? Having received fraudulently the power in the country, they have generated the environment, and scoff at the people of Ukraine.

They write laws for themselves, secretly from us, raise to it salaries, create privileges at our expense, will organise to itself and relatives warm workplaces which are financed by us, from the country budget.

Officials promise to us that for our money, they will create to us conditions for a life. Will lift pensions and will carry out social programs in a society, but thus from the budget very large sums of money vanish. Thus we pay to officials the salary, we contain them, we are pay a food and regimentals.

It is not present in the country of such illness and a problem which officials would not invent and have not cured at the expense of tax bearers. A major principle of work of all officials in the government: «I Serve fatherland while hands carry». With sick hands in the power there is nothing, if to hands of nothing that you will bear upward, to the higher official sticks. Not for this purpose you are an official, have been appointed in the power, and this profitable and corruption post is created under you.

# THE TRANSNATIONAL PROJECT «LIFE»

Ask itself a question! Who heads today Ukraine?

There is president, the Government, Parliament, leaders of parties, political elite and their environment?

As a matter of fact, it is officials - the managers appointed the same officials, but not the people. They have created themselves and have appointed to the higher posts, having deceived own people! The people are not necessary to them in this case. There is another matter should be humoured elections, here the people.

Who is at the head of the largest party clans in Ukraine?

Who is a today deputy of the Supreme Rada?

Who works today in Office of Public Prosecutor, the Ministry of Internal Affairs, SSU, tax inspection, national bank, Gohrane, exchequer etc.

These officials are recommended, put and belong to various parties in the country, but any of them is not people parties, such parties are not present in the country, and never was. All a continuous deceit and people's power properties.

We are tax bearers of the country, the present workers of our state. We really are elite of our social society. On us, all economy of the state keeps.

Officials of the country are bought. Pass on the market of Ukraine delayed, the poor-quality and poisoned goods from every corner of the globe, a foodstuff which let out at the country enterprises at times from poor-quality raw materials and do not correspond to human standards. Sausages, canned food, preserve - are poisoned. Country standardization was lost together with industrial economy of the state. The people of Ukraine perish, the genofund is destroyed deliberately.

The president, the Government, Parliament and so-called "national" parties, are keen on political strike among themselves for the power.

The people perish, it destroy deliberately, to protect tax bearers of the country there is nobody. There is no such party in Ukraine.

We tax bearers of the country wait, while the power again, will remove, to whom be. We will hope again for new "barin" or kind "tsar".

«Here there will arrive the barin, the barin us will judge». All people dreams of the next utopia.

Look, what occurs in Ukraine?

On what basis officials pay to themselves of the salary in 100-1000 times more, than we receive on harmful manufacture, on our workplaces? Absence of control of the power

# THE TRANSNATIONAL PROJECT «LIFE»

from outside tax bearers has led to a national grief and lawlessness. The country law not the decree, the constitution not the organic law, etc. The telephone right, here the law, and to the people here is not present a place. We are tax bearers of the country, use all who feel like it.

It is time to this lawlessness of officials, to put an end. Justice should triumph in Ukraine. The generation dreams of it, and perish they for the sake of happiness of the future generations of our country seniors. Time has come to split this «Gordeyev knot» and to ask with guilty for all.

Really you, tax bearers of Ukraine, do not wish to see a justice celebration in the country, and to receive with all of them the dividends wholly.

It tax bearers of a planet for a long time have understood. Today there was a new ideological thinking. There was seriously a question of association of payers of taxes of all countries of the world on economic - legal basis, under a uniform flag of the World Assembly of Parties of Payers of Taxes.

Creation in each state of party of tax bearers of new type, and at us in the country of All-Ukrainian Party of Payers of Taxes which will direct to the power of the best sons and daughters, for work for the blessing of the people.

Remember, A-UPTP it is capable, and will supervise quality of work of party members, officials in the power from A-UPTP, and it is strict from them to ask for lacks and omissions.

A-UPTP and the people - are uniform! There, where we there a victory!

[www.peaceful-hydrogen.com](http://www.peaceful-hydrogen.com)      [www.vppp.org.ua](http://www.vppp.org.ua)

It is necessary to forbid a key element of party which is engaged in its building, to combine all elective offices in public sector, irrespective of their status. Going to the power under the party decision are obliged to transfer the post in A-UPTP, and only then under the party recommendation to go to elective state posts.

Only so, we will avoid that disgrace which occurs today in all political parties of the country. All parties are infected by "feudalism", a cult of personality. These parties - a solo performance, to party belong to the main official, i.e. one person, its political leader. It everything", the others anybody!

In people party (A-UPTP) the cult of personality, excesses and distortions of a policy of the party on places are inadmissible. Unlike that we see today, in the politician of all existing parties of officials in our country.

In all parties really there is no principle of democratic centralism. There is no criticism and self-criticism development. Their development conducts to prosecution. Any criticism to

# THE TRANSNATIONAL PROJECT «LIFE»

"Leader" is an exception of party, persecution and the further humiliations the members of the same party who have kept fidelity to "Leader".

Ukraine, it's legislative and executive power look today, as the broken hours. The unique advantage of them, they twice a day shows an exact time to the people. A shame!

In everywhere on the Internet there are custom-made themes from parties and officials in the power walk. Do not practise authors of fair articles in eloquence. All is vain. True and the truth you will not inform the people. It is presented deformed, ugly and at times leaves from the press. It is difficult to find the truth in the country when it is not present. Struggle of officials for the power, generates and shows the lowest human qualities!

Material delete, it does not reach the reader more often.

Today in the power of Ukraine, at appointment to posts, the film scenario, «Stupid is played, and it is even more stupid»!

Rhetoric and speech of heads of the state, parties, the government and parliament as high-ranking officials of Ukraine to us it is extremely clear!

The Earth - to Peasants,  
Factories and factories - to Workers,  
Checkpoint is to the Director (to the main official of the country and its environment).

The raw, material resources and values of Ukraine is the national property to those who will show and will show the personal fidelity to the official of the country or the leader of party.

The people of Ukraine, in love and fidelity to the leader and the official are not noticed, it there and it is not visible. The people damn all officials and heads of the state, therefore to it get nothing from a delicious pie at a sharing and distribution of fragments of a national economy.

It is necessary to struggle actively for the rights and freedom, instead of to be silent, not to suffer mockeries at self, officials from the power!

Payers of taxes, you understand, what heavy struggle will inflame between parties of officials for access to a tax money, for liquidation and reduction created by officials for officials of workplaces, with privileges on all country and financed by us from the state budget.

We ask all who supports idea of search and promotion from tax bearers of the country of our national President of Ukraine, to familiarise with our letter.

# THE TRANSNATIONAL PROJECT «LIFE»

THE PEOPLE OF UKRAINE! OFFER THE NOMINEES OF WORTHY CITIZENS OF THE COUNTRY, ON THE POST OF THE PRESIDENT OF UKRAINE!

***Take to itself for a basis of the hero.***

With whom, you are ready to go into battle, protect today the constitutional laws and freedom? It also should from tax bearers of Ukraine, to become the President of the country!

Give we, payers of taxes of Ukraine, we will change our life to the best, we will find and we will propose the candidate, in national Presidents.

[www.peaceful-hydrogen.com](http://www.peaceful-hydrogen.com)    [www.vppp.org.ua](http://www.vppp.org.ua)

Candidates all these doubtful and imposed to us from the power of officials, have already become familiar also rather have bothered. These, excuse for expression hypocrites, have created an intolerable life for the people. Them hate in a life, on screens of TVs, posters, nobody wishes to see them and in the power.

Give all amicably and in an organized way we will offer, for discussion, a nominee of young, perspective and worthy people in Presidents of Ukraine!

And, why, is not present? Any more will not be worse, and there is no place further! It is important, that the person had "core" and divided ideals of tax bearers of the country.

The power and its officials have plundered everything in Ukraine, the national produce is not present, the industry is killed, the people without work and the salary, the criminality grows, the external debt of the state has grown and became very heavy for the destroyed economy of our country. All parties promise to increase pensions and salaries. There is one question, at the expense of what, and how? All parties existing in the country are parties of officials and their servants.

Opinion at the people one: those who already was in power, stole, but anything for the country has not made, that not a place there again. The power in the country should be national, namely, belong to tax bearers of Ukraine, those who is an economic basis of the state and a source of formation of its budget.

# THE TRANSNATIONAL PROJECT «LIFE»

The people of Ukraine, under the pressure of infinite quantity of officials, became experimental "being" in hands of officials and their clans.

It compel to go under pressure upon elections, to vote from dictation of officials.

It becomes that in the fullness of time, on command from above, an administrative resource to force people to vote for the candidate favourable to the power.

Every time during elections, not intelligent or because of poverty, for scanty money, they force us to sell and betray for nothing the future, destiny and happiness of children, the family.

Uniform criteria of search of professionals for work in all spheres of activity of the person, including President of the country should be defined.

Offer worthy and alternative nominees from the people, vote for the correct choice, for the sake of the children, grandsons, the family!

Our main principle: all interested persons can participate in the project, irrespective of a social status, an origin and a party accessory.

We search for people who will do the country rich and answer four competence, conditionally named "SECTOR" - after all everyone who enters into a personnel reserve, should be the patriot of the country, the birthplace, т.е native district or residing today.

***That means: - competence, development, an active vital position and intelligence?***

Competence is an efficiency of activity, stability of the success, the reached unique results and high potential.

Development - knowledge of languages, ability to listen and hear, take into consideration another's opinions, a broad outlook and communicative skills, decency and aspiration to self-improvement, command work.

The active vital position is a desire to be "the agent of positive changes", to serve the people and the country, belief in possibility to change the world to the best, leader qualities, absence of fear before responsibility.

The intelligence is a criticality and constructibility of thinking, the complex, strategic approach to business.

# THE TRANSNATIONAL PROJECT «LIFE»

It is natural that we live in the competitive environment, therefore and in a personnel reserve those who will show will be selected and will show these qualities most brightly.

In base of the complete set, five sections: - social sphere, business community, mass media, party and public work, the state and municipal management. In each of them there are categories.

To tax bearers of Ukraine, and all countries of the world, always easier, at them the same world problem, one grief on all among themselves will agree.

Surprisingly, but by experts it is established that publicity for our nominee in this case is not necessary and has no and does not play value. Here the ideology covering weights of tax bearers in the country.

It is important, what all of us, payers of taxes of the country have united, and the person whom we will find, and we will put forward on the higher state post, the countries, arranged all of us and has been put forward in Presidents, from tax bearers of Ukraine.

Against it, any political party of the country will not resist whatever it was powerful at the moment of deployment of our project. Parties of officials do not have main thing, party ideology of tax bearers. One conversation, lie and promises. Where it is possible to take money in the country, on all social problems when the economy is disorganised, there is no developed internal consumption and self-sufficient home market. External debts of the country grow, and the state dries.

In this case it is very important, that the candidate for Presidents divided ideology of tax bearers of the country, the Charter and the Party program accepted by congress. Important what the President, with support A-UPTP further, defended the rights and freedom of the people of Ukraine, instead of officials.

Today that, «WHO AGAINST ALL», former and present "leaders" in Ukraine, already 34 %, will be fast 35 % 40 %.

Tax bearers of Ukraine, remember, for the happiness and the power it is necessary to struggle.

Except us, those who is rallied by the general national grief and together with public organisation «the Center of protection of the rights and freedom of payers of taxes "LIFE", will unite in All-Ukrainian Party of Payers of Taxes (All-UPTP), anybody except you to struggle, and something to do for our children of the family, will not be.

Further our life in the country will be even worse, and we than tax bearers, the state, united by the general idea and strategy, will be even more!

# THE TRANSNATIONAL PROJECT «LIFE»

The administrative resource, strangely enough, is absolutely not necessary to us. We are, owners of Ukraine, the adult population of the country dissatisfied with a situation in the state, more than 35 million persons which officials have made farm laborers in the country.

Look a site: All-Ukrainian Party of Taxpayers or it is simple A-UPTP.

[www.peaceful-hydrogen.com](http://www.peaceful-hydrogen.com)    [www.vppp.org.ua](http://www.vppp.org.ua)

The Kiev institute of problems of management of a name of Gorshenina has finished expert research «the Future of Ukraine". In the list have been included, more, than forty politicians (deputies of the Supreme Rada of Ukraine, members of the cabinet, a presidential vertical, mayors of cities, heads of social movements etc.) which names most often appear in a press and by which it was not executed at the moment of carrying out of research of 45 years.

THIS LIST AS EXAMPLE THAT THERE ARE IN UKRAINE WORTHY PEOPLE FROM WHOM IT IS POSSIBLE TO CHOOSE CANDIDATES FOR PRESIDENTS, THE GOVERNMENT, PARLIAMENT, LOCAL SELF-GOVERNMENT INSTITUTIONS AND NOT COST TO GO IN CYCLES THAT WE ARE IMPOSED BY OFFICIALS FROM THE POWER!

The people of Ukraine, are finished to a despair and anger, are unpredictable in the actions. Really all of you see nothing, what occurs in our country to the people?
