However, recognizing the social-democratic idea in general, we cannot ignore the complexities and challenges it was facing the threat of civilization crisis. THE TRANSNATIONAL PROJECT «LIFE»

The Socialist International today has no central governing body. There is Congress, which convenes every three years, as well as executive committees, offices and regional organizations. Congress does not make decisions binding on all parties. All decisions are taken by consensus, ie of the joint resolution is removed everything that did not accept at least one party. Social democracy is pluralistic, not recognizing the need for a common ideology.

We have such an ideology to the world community offer.

Public Organization "Center of the rights and freedoms of taxpayers "Life", Organizing Committee for the establishment of an Executive Committee of the World Environment, Economics and Law of the Union "LIFE", "World Assembly of the Party of the tax payers" and "All-Ukrainian Party of taxpayers" Guide International Environmental Project "Peaceful Hydrogen and Energy" with the EU, BSEC, SDS, BRIC, APEC, the Board of Directors of International Technical Consortium "New Environmental and Energy Projects", the organizers and leaders of the International Program Mega turn to you to take part in the developed by us Project, whose documents are posted and presented on our sites:

THE TRANSNATIONAL PROJECT «LIFE»

Cooperating with the plenipotentiary representatives of the countries-participants of the Program, we came to a conclusion, that it is possible to consolidate the society to solve the global problems only based on the findings of the theory of the noosphere and in a way of the World Coordinative-Executive Committee creation, which has the functions of the “LIFE” World Union government indeed.

The transnational ecological-economical Program is worked out by us for unification of the large world projects with participation of the leading international organizations and with support of the world taxpayers.

The World Assembly of Taxpayers Parties is foreseeing with the aim of ideological unification of the Taxpayers’ Parties, countries, taking participation the “LIFE” project. This activity is already leading by us.

So, the Transnational ecological, legal-economical Program includes creation:

- a) **Coordinative-Executive Committee of the World Union “LIFE”** (“The World ecological, legal-economical Union “LIFE”), its structural divisions, daughter companies and representatives all over the world, with participation of the countries which are the members of EU, BSEC, MTC, BRIK, PAEC and a list of other countries.
- b) **International-Technical Consortium “the New Ecological and Energy Projects”**, and its infrastructural divisions with an aim of Hi-Techs implantation, researches, workings-out development and commercialization their results at the world countries;
- c) **World Assembly of Taxpayers’ Parties (WATPP)** and regional TPP.
- d) **Public Joint Stock Company “Investment Transnational Corporation of Hi-Techs, Peaceful Hydrogen and Energy “HYDROGENATOMMACHINDUSTRY-ENERGO – NANTECHMATH”** and its structural divisions with the aim of Hi-Techs implantation, researches development, working-out of them and commercialization their results in Ukraine.

THE TRANSNATIONAL PROJECT «LIFE»

fundamental and applied problems at the area of hydrogen-atomic, hydrogen, alternative, refreshing energy, fuel elements creation, nano-system and nano-materials, quant points industry. It is necessary to lead the active struggle with transnational terrorism, to create the national and international safety of the states, taking participation the World Union Program “LIFE”.

It will be possible to solve the problem of economical, ecological, energy and nuclear safety of the countries on the base of received knowledge and achievements of the humanity.

- education and science, science intensive industry;

We have a real opportunity with the taxpayers of the world to breathe in the Socialist International and its member parties, the new progressive ideas.

Domestic work has already begun to revitalize the social movements in society and create the most powerful party AOTP, uniting 38 million tax payers. Take part in this project, we invite and socialists.

The taxpayer at its core - the carriers left ideology, but, unfortunately, they are not aware. The implementation and success of the project largely depends on the party's name. AOTP - this is essentially only under the names of possible success of the project as a whole. Therefore, we propose to change the name of the Ukrainian Socialist Party on AOTP. Thus we ask the taxpayers of the country in the right direction where to go and whom to support in any election in the country. The name of the party is its brand. AOTP - truly people's party. Its appearance is dictated by the demand of time. All existing parties in the world, party officials and their environment, sectoral party, which protect only the interests of officials. The party aims to conclude the taxpayers of human civilization crisis and build a society based on synergetics and theory of the noosphere.

It is supposing that the first signed documents of the World Union “LIFE” creation will have exactly that country, which takes active participation the work under the leadership of the Head of the state, the Parliament and the Government. It will be nice as for the authors of the Coordinative-Executive Committee of the World Union “LIFE” to present the collegial decision of the Council of Directors, for what country firstly will be given the right to be in the chair at the World Union “LIFE in a person of its President.
