

TAXPAYER PARTY WORLD ASSEMBLY

WE ARE A SINGLE WHOLE WITH A NATION, WHERE WE ARE THERE IS A VICTORY!

№ 03/6-07 " 07 " 07.2009

**To all legal entities and individuals!
Taxpayers of the world, unite!
To all taxpayers of the planet!**

APPEAL

TO NATIONS OF THE WORLD, HEADS OF STATES, PARLIAMENTS AND GOVERNMENTS, TO MINISTRIES OF FOREIGN AFFAIRS AND CHAMBERS OF COMMERCE, TO INITIATORS OF CREATION OF THE WORLD ASSEMBLY OF TAXPAYERS' PARTIES, TO COMMUNITIES OF STATES: UN, EU, OBSEC, MU, BRIC, APEC, TO PARTICIPANTS OF INTERNATIONAL ENVIRONMENTAL PROJECT «PEACEFUL HYDROGEN AND ENERGY»

Nations of the world! Taxpayers! We are the Ukrainian Steering Committee for foundation of the Taxpayers Party, the Public Organization «Centre for Protection of Taxpayers' Rights and Freedoms «LIFE». We invite you to participate in the International Socio-Economic and Political-Legal Program «LIFE», aimed at protection of constitutional rights and civil liberties of taxpayers, development of domestic and international entrepreneurship, joint defusing of the global economic crisis.

All parties presently existing and being in power in the world are parties of bureaucrats and their leaders that protect and assert only their bureaucratic rights. They are permanently enlarging their staff, spending budget funds, fixing unthinkable salaries and benefits for themselves. The number of bureaucrats in the world is constantly growing, while jobs for people are cut.

We, the taxpayers, are the economic foundation of any state; we form budgets of our countries and finance all socio-economic programs. The arbitrary rule of public bureaucrats humiliates and abuses the taxpayers. The bureaucrats forgot that they lived and existed only at the expense of our labour. Power in our countries periodically changes, but grave social, economic and legal problems of taxpayers remain unsolved.

The presented project enables changing the life of every person and a nation as a whole in any country for the better. Confrontation among the taxpayers, the power and the state drives economies of our countries to the critical limit. The permanent struggle among several leading parties and irrestrainable hankering after power of their leaders dismember societies, destroy public economies, and result in social strain. The National Taxpayers Parties (NTP) are in position to solve the problem of uniting the planet's people based on fair socio-economic and legal principles of public development, to prevent the bureaucrats, the political minions from final destruction of achievements of civilization. They are capable of creating socio-economic, highly profitable and deeply integrated business units of real economy in each country within the framework of the

TAXPAYER PARTY WORLD ASSEMBLY

International Environmental Project «Peaceful Hydrogen and Energy» (IEP «PHE») and the International Technical Consortium «New Environmental and Energy Projects» (ITC «NEEP»).

We believe that under the auspices of the United Nations Organizations (UN), the European Union (EU), the Organization for Black Sea Economic Cooperation (BSEC), the Mediterranean Union (MU), the BRIC and the Asia-Pacific Economic Cooperation (APEC), all nations of the world can be united based on economic principles for mastering «High Technologies», representing the only possible way of further development of human civilization. We call to establish the National Taxpayers Parties (NTP) with the participation of active citizens and people's leaders that will ensure socio - economic and legal orientation of each state's development.

The NTP are capable of uniting the countries from the inside and stabilize the economic situation in them, of strengthening positions of the Taxpayers Parties Assembly in the world.

The National Taxpayers Parties (NTP) are political parties, real structures of new power and tools in the taxpayers' hands. They are capable of ensuring the majority of votes in National Parliaments and of becoming the body for protecting people's rights at the legislative authorities of the country. By the estimate of the International Experts, the project for foundation of the National Taxpayers Parties in the countries, establishment of the World Assembly of Taxpayers Parties (WATP) is so powerful that it allows uniting taxpayers of different states as soon as possible and forming a new power in a democratic manner. And this will enable carrying out necessary socio-economic and legal transformations in a country to protect citizens - taxpayers, uniting population around the solution of national, economic and social problems in a society.

This Mega Project makes a great problem for different active political parties and trends in the world, which struggle for power inside states, but do not solve social and legal problems of taxpayers at an adequate level. The majority of the worlds' political parties are in stagnation and incur a deficit of new ideas. Nations are tired of struggle among ruling clans and confrontation among leaders of different party trends. Time demands changes. It demands uniting the world's nations under a single flag of the economic National Taxpayers Parties. The «Life» Project provides for such an opportunity.

It provides for solution of a number of global problems of the contemporary society:

- **Political** – taxpayer's participation in a country's legislative life;
- **Economic** – integration of all states into a global community based on participation in the «High Technologies» Project, creation of a single economically self-contained inner and outer space;
- **Legal** – protection of the taxpayers' constitutional rights and civil liberties;
- **Environmental** – integrated solution of the problems of global warming and change of global climate;
- **Energy** – large-scale implementation of alternative, renewable, nonconventional power sources, fuel elements and energy-saving technologies.

The socio-economic and political-legal project «LIFE» developed by us is feasible.

TAXPAYER PARTY WORLD ASSEMBLY

It will enable creating conditions for implementation of the program of the International Technical Consortium «New Environmental and Energy Projects» and establishing national infrastructures of the Transnational Environmental Project «Peaceful Hydrogen and Energy» in countries. It will make it possible to carry out the international scientific-technical selection of the worlds' developments, to search for new environmental and energy projects in the field of up-to-date «High Technologies». It will allow solving problems of basic and applied research, mastering and implementing atomic-hydrogen, hydrogen, alternative, renewable energy and fuel elements, industry of nano systems and nano material, as well as solving problems in economic, environmental, energy and nuclear safety of states with participation of taxpayers, the global community's transition from «Hydrogen Energy» to «Hydrogen Economy».

Participating in the proposed Project, we could jointly create a universal and perfect transnational political tool for protection of our constitutional rights and civil liberties in the form of the economic-legal National Taxpayers Party.

The efficient activity of the National Taxpayers Parties will enable strengthening the economy of any state due to carrying out reforms.

Through our political party, we shall be able to actively influence all the vital socio - economic processes in the society.

Based on the National Taxpayers Parties, we shall create the World Assembly of the Taxpayers Parties (WATP), which will give us an opportunity to have consultations and exchange experience in solution of problems of the taxpayers' rights and freedoms protection, to coordinate efforts in exercising political influence on socio-economic processes in the society.

We have founded the Steering Committee and now are developing the Charter, Program, emblem, flag and Hymn of the World Assembly of the Taxpayers Parties (WATP). In association with the first registered National Taxpayers Parties, we are ready to prepare and hold the Constituent Congress of the World Assembly of the Taxpayers Parties to elect the Executive Committee and the WATP managing bodies;

We consider it expedient to establish the National Taxpayers' Parties with the participation of the United Nations Organization (UN). Implementation of the "Life" Project proposed will make it possible to create new conditions for development of entrepreneurship, formation of a single inner and outer economically self-contained space of the states - participants of the International Environmental Project «Peaceful Hydrogen and Energy» on the territory with the total population of 4,6 billion people.

It will be possible to unite all great industrial states - the Project participants to solve global problems: political, legal, economic, energy, environmental, including problems of global warmth and change of global climate, drastically reduce prices for energy sources due to implementation of new technologies.

We invite all willing to participate in implementation of IEP «PHE» on the territory of your state and create ITC «NEEP» organizational structures.

Do not hesitate to contact us.

We, the taxpayers in Ukraine, have started implementation the world's first International socio-economic, political-legal Project «LIFE» and foundation of the All-Ukrainian Taxpayers Party. Taxpayers, unite, and remember that in the struggle for your
