THE TRANSNATIONAL PROJECT «LIFE»

- World Assembly of Taxpayers Parties (WATPP) creation and the first one in the world which is "All-Ukrainian Taxpayers Party" (AUTPP), with the support of the social organization "The Center of Taxpayers Rights and Freedoms Protection "LIFE", which is promoting the new economical, political and ideological thinking of the taxpayers of the world.

The International Ecological Project "The Peaceful Hydrogen and Energetic" and the Project of the International Technical Consortium "New Ecological and Energy Project" creation will determine its economically self-enough internal market of High-Tech, goods, works and services producers at the each country at the first stage. It will create the united inside economically self-enough market of High-Tech, goods, works and services producers at the second stage with the participation of EU, SDS, OBSC, BRIK and ATES countries (there are 90 countries altogether which are invited to the project realization).

This market with unite the developed countries of the planet with their population more than 4,6 milliards of humans, where all modern projects at the fields of High-Tech, "Atomic-Hydrogen , hydrogen, alternative, refreshing energy and fuel elements, nanotechnologies and nanomaterials" programs may be realized in their territories, including the ones of energy sources diversification at the changing period from the hydrogen energetic to the hydrogen economics within the each state preparing to the participation at the International Ecological Project "Peaceful Hydrogen and Energetic" and to the decision of different International ecological problems and keeping the existing climate.

We are going to start the realization of the program which was looked up by us at Ukraine as the weakest branch at first and at Europe and other countries of the world afterwards by the objective political reasons.

The International Project "LIFE" was presented to the ambassadors of foreign countries in Ukraine, Heads of the states, Parliaments and Governments of 90 countries of the world, to INTERPOLE, Trade Chambers of the countries, Hydrogen energetic Associations such as American Hydrogen Association, European Hydrogen Association, Association Française de l'Hydrogène, Italian Association for Hydrogen and Fuel Cells, German Hydrogen and Fuel Cell Association, The Spanish Hydrogen Association, The China Association for Hydrogen Energy, European Technology Platform for Hydrogen and Fuel cells, International association for hydrogen energy, Partnership for progress in the transition to a hydrogen energy, International Energy Agency , Organization for Economic Co-operation and Development , International Partnership for the Hydrogen Economy , International Monetary Fund , Russian Corporation of Nanotehnologies. «European Wind Energy Association», Ministries of Environment Economics and Finances of the countries which are the members of the European Union (EU), OBSEC, ATES, BRIK, SDS, as well as to the strategic investors, the World Bank (IBRD), THE EUROPEAN RECONSTRUCTION AND DEVELOPMENT BANK (EBPP), BSEC Business Council, United Nations (OOH), GREENPEACE, United Nations Environment Programmers (UNEP)., UNESCO United Nations Environmental Program, International Atomic Energy Agency (IAEA), IUCN, WWF, THE CLUB OF ROME, United Nations Economic Commission for Europe (UNECE), European Ccommission, Economic and Social Commission for Asia and the Pacific (ESCAP), OSCE, APEC, European People's Par, Economic and Social Commission for Asia and the Pacific, United Nations Economic Commission for Europe, INTESA SANPAOLO, AJMAL HAMEED & PARTNERS, Society of Strategic researches» (Berlin), "Joseph Muller Corporation Zurich" (Switzerland), Bill & Melinda Gates Foundation, Berkshire Hathaway Inc., Mr. Warren Buffett, SC Academy of Sciences in Chernogolovka, Institute of PCP, RSC

THE TRANSNATIONAL PROJECT «LIFE»

Kurchatov Institute, Russian Academy of Sciences and to other social world political, ecological and energetic organizations and also introduced to the Ambassadors of the foreign states in Ukraine.

We, the authors and initiators of the Transnational law-economical “LIFE” Project, think that it is possible to solve the problems of ecology and climate keeping at the planet on the base of High-Tech establishing to the daily life, to increase the economics of the world countries participating at the Project by the account of the internal and external self-enough market creation, to solve the headed social-economical and law issues at the society.

Every country, participating at the “LIFE” Project gets investors’ financing for High-Tech development in a size of 1, 5 milliards EURO. At the same time it will solve and look up the issues consolidating the state and the society first of all. Many serious and conflict issues collected inside the society will disappear as the economical growth and development of the countries.

The states where the taxpayers parties will be created and which will be a part of the World Taxpayers Parties Assembly, and which are taking active participation at the “LIFE” Project realization, may get financial investments in 10 times more size, i.e. in a size of 15 milliards of EURO. These funds will be purposeful picked out to the High-Tech assimilation, nanotechnologies establishing, nanomaterials and fuel element of the new generation producing.

In this case investors, the World Bank and EBRD, investing huge money to the economic of one or other state will be sure that those funds will not be lost, and the investing states will not go through internal political conflicts, but will begin to develop advancing and sustainable, produce cheap energy vectors and to assimilate new technologies.

The population will get the high level of the life and guaranteed law protection. Our credo is “to invest in what we understand well ourselves!”

Thus, we will be able to increase the international partnership through the favorable invest climate and the economical raise of the countries and Hi-Tech establishing.

To pull up the economically retarded and developing countries, to consolidate the peace at the planet and to decline different national, state and international conflicts, antagonism and factions on the religious ground at the society, to stop the terrorist attacks and wars at the planet.

Hence, we invite the taxpayers from all over the world to the active participation at the transnational ecological, law-economical “LIFE” project!

The Project models the new economical and political thinking and the new ideology of taxpayers from all countries of the world, which is the most important.

It has dictated the necessity of the World Taxpayers Parties Assembly creation and the All-Ukrainian Taxpayers Party as its component with participation of the social organization “The Center of Taxpayers Rights and Freedoms Protection “LIFE”.

THE TRANSNATIONAL PROJECT «LIFE»

The Project Goals are:

- To lead out Ukraine and other countries from the deep system political and social-economical crisis.
- To create necessary prerequisites for the change from post-industrial economic to the real economic of the newest universal technologies in Ukraine and other countries.
- To provide the law-social protection for taxpayers.

The project realization will allow organizing the activity of social, non-governmental organizations of the world to the fight with bureaucratic despotism and to the protection of taxpayers (and the people) from the non-legal actions of the authority, to direct its work to the new law course.

It will help to provide the taxpayers involvement enforcing to the world political situation, to act upon the some problem countries where the constitutional rights and citizen freedoms of the taxpayers and the population at all aren't protected.

The project unites scientists and specialists of different countries of the world in different areas of the modern science, technique, economics and law. It purposed to the new approaches at political economy, sociology, economic and finances, philosophy and jurisprudence, science of law and international law, psychology and political science to solve the collected problems of the modern society, including the programs realization at the atomic-hydrogen and hydrogen energetic, alternative and refreshing energetic, new fuel elements and nanomaterials producing, problems solving at the areas of ecology and planet climate saving.

To provide the possibility of the projects realization, the unique infrastructure of the International Technical Consortium managing subjects "New Ecological and Energetic Projects" (MTC "NEEP") has worked out and offered to inculcation.

The Project realization will allow directing the activity of social, non-governmental organization at the world to the fight against the bureaucratic despotism and to the protection of taxpayers (and the people) from the non-legal actions of the authority to the new law course.

It will give a possibility to provide the influence of the taxpayers to the political situation in the world, to act upon the some problem countries, where the human rights are breaking and there is no protection of constitutional rights and citizen freedoms of taxpayers and the population at all.

The Project is uniting the scientists and specialists in different areas of the law and economics, modern science and technique from many world countries. It will provide the realization of the new approaches in political economy, sociology, economics and finances, philosophy and jurisprudence, science of law and international law, psychology and political science, which concentrate the world knowledge to decide the headed problems and leading at the modern society, including the atomic-hydrogen energetic, alternative and refreshing energetic, fuel elements and nanomaterials producing, ecology and the planet climate keeping problems solutions.

THE TRANSNATIONAL PROJECT «LIFE»

The unique infrastructure of the International Technical Consortium managing subjects “New Ecological and Energetic Projects” (MTC “NEEP”) has worked out and created.

The “LIFE” Project foresees the Centers of Rights and Freedoms of Taxpayers “LIFE” creation in each country in a perspective, as well as the creation of the united internal and external economical space on the base of High-Tech, self-enough market, transforming of the real sector of economic.

We think that the humanistic purposes of the “LIFE” project, such as the civilizations confrontation overcoming, global tension rising, which are the civilizations crisis consequence, can't be indifferent to the main world religions which take their efforts to solve the common to all mankind problems.

The inner-confessional dialogue which took place at Kazakhstan at the last time, demonstrated it clearly. **The world and traditional-national religions congress is the unique event of the world meaning.** Thereupon we would like to apply the world confessions leaders to get to know the “LIFE” project and to express us their support in its realization.

Religion can be a sphere of the special authority. It can give us forces and consolation at the difficult time. It helps us to find the place in harmony unites families and the society together and gives morality and sympathy for the personality. Religions differ widely. But we are applying to the universal valuables in our heart. To be charitable, patient and to love one's neighbor are the valuables for which any religion can't approve its monopoly. They deeply implanted at the human's soul.

All countries of the world and their leaders resolutely support the goal to enlarge the inter-confessional common understanding with the aim to develop the freedom of conscience and freedom at all, as well as to exterminate the reasons of terrorism.

Religion play and will continue to play the important role to the peace promoting and harmony achievement within people all over the world independently of the confession. The religious splits at the society and between the countries are too often exploiting by principle less and fanatic people to provoke intolerance and detestation. Religious and political leaders are bearing the common responsibility for this confession misrepresenting prevention.

We can proclaim together in spite of the ideology differences that we wish to live at the atmosphere of mutual respect and sincerity. Moreover, the religious confessions offer us the primeval valuables, which help us to change the forms and methods of the life activity, if we should speed to them.

We have the common task, which doesn't allow to anybody from us to say that we not need each other because we exist on the same planet.

The current partnership is the lively important step at the new contacts between the people and inter-confessional dialogue at the Republic of Kazakhstan development plan.

The co-operative work to achieve the peace by the way of the dialogue concordance will provide the security for everybody, help to prevent confrontations at the world society and to eliminate the inter-cultural confrontation reasons and to unite the efforts to solve the humankind problems.

THE TRANSNATIONAL PROJECT «LIFE»

We, being the “LIFE” Transnational project authors, appeal all leaders of Christian and Buddhist religious organizations and communities leaders to the efficient propaganda of the peoples’ peacemaking potential.

We appeal to all the kind wheel people to resist the efforts to use the religious differences for the detestation propaganda. We also appeal them to encourage the efforts to explain the meaning of different religions and civilizations and to advance the mutual understanding by the way of education and enlightenment as well as to use the moral and soul valuables during the searching of the fair solutions of the financial-economical, social and ecological problems.

The detailed information is posted on our sites:

www.peaceful-hydrogen.com www.vppp.org.ua

AUTPP, WATPP, IEP “PHE”, MTC “NEEP”, “Peaceful Hydrogen and Energetic”, “The Center of Taxpayers Rights and Freedoms Protection “LIFE”.

It was offered for the participants of the transnational law-economical “LIFE” Project to create the World Taxpayers Parties Assembly (WTPPA) on the base of national parties of taxpayers along with the unique infrastructure of owning subjects of the International Technical Consortium “New Ecological Projects” (ITC “NEEP”) development.

Our request to you is also connected with a fact that AUTPP can be created with collaboration of the large international private investors, world financial institutions and large transnational banks. The AUTPP can be supported by the World Taxpayers Association, European and Eurasian Taxpayers Associations, the World Bank, the World Monetary Fund, European and Mediterranean banks of Re-construction and Development, World Jewish Congress, World Congress of Russian Speaking Jewish Community, European Jewish Congress, Eurasian Jewish Congress and other interested organizations and world structures. These organizations will play the most important role at the “LIFE” Project in providing the “LIFE” project a possibility to realize as well as in its resources and actives managing.

So, in accordance to the thesis of Robert B. Zoellick, which is the World Bank President, “The World Bank activity goals are to support the sustainable globalization in the interests of all parts of the populations, poorness scales shortening, economical development increasing without a hurt for the environment as well as to create new possibilities for people and to give them hope”.

It is necessary to conduct the active organization and explaining work among the population, to explain the goals and tasks of the political structure of taxpayers in all countries, taking part at AUTPP creation, attracting social organizations to it. They must support the national political parties of taxpayers creation and their program goals and tasks realization by the different ways.

This large-scale activity with different organizations and managing structures in Ukraine has been already started by us. We think it is good to get an approval and to connect the All-Ukrainian Jewish Congress (AUJC), the United Jewish Community of Ukraine (UJCU), Ukrainian Jewish Committee as the most active and organized unions at the fight for the citizen rights and freedoms and for the economical development of Ukraine with collaboration

THE TRANSNATIONAL PROJECT «LIFE»

of the world society. The Project allows getting the authority by the legal constitutional way to conduct the suspended internal and external policy of the neighborhood and native country development on the base of the law and economics establishing after the Taxpayers Party creation.

Our goals and tasks are expressed on the site in three languages, they are getting closely by their meanings to the normative documents of the international organizations given above, the UNO decisions, Resolution about the Anti-Semitism, which is expressed at the Berlin Declaration and at other normative acts of international organizations and citizens' communities.

We will be able to solve many collected problems in our society if we will unit around AUTPP, confirming the Total Human Rights Declaration stating that everybody must have all rights and all freedoms without any differences, including the ones touching a race and a religion.

Let's remind of a fact that the 1article 18 of the Total Human Rights Declaration and article 18 of the International Pact about the Citizen and Political Rights states that everybody has a law to the freedom of an idea, conscience and religion.

Acknowledging that anti-Semitism, which has found its awful demonstration in the Holocaust, has found the new forms and means of expression, which make the threat of democracy and civilization valuables with other forms of non-tolerance. And we will be able to protect ourselves and our children and grandchildren on the law and economics base, to save the further generations from the horrors which are offering us by the non-responsible politicians already today, united around the AUTPP only.

We invite you as the large taxpayers of your countries to take participation at the "LIFE" Project. Today the World community needs the fresh extraordinary solutions built on the HIGH-Tech base, which are able to provide the strong incitement at the law-economical civilization development, united internal and external economical field creation and at the real sector of economics transformation.

The possible destinations of the program realization are expressed on the sites:

www.peaceful-hydrogen.com www.vppp.org.ua

In accordance with the marks of international experts the law-economical "LIFE" Project is curiously perspective and it is able to help to lead-out the countries from the financial and economical crisis at the shortest terms. As well as it will help scientists to work out the new and perspective ways of the further development of our civilization.

I apply you to get to know with the papers which are offering to your attention and to you're your reply about a possibility of your organization, unite, commercial and state structures participation at the Transnational ecological and law-economical "LIFE" Project as well as to assist your countries to take participation at the international project at the level of the Heads of States, Parliaments and Governments.

THE TRANSNATIONAL PROJECT «LIFE»
